For the Windows user with multiple displays & the need for multi-port expansion

Up to 100 Watts of Power

Multiple Display Capabilities

With 10 ports, 100 watts of total power, and a compact design, the Stone CORE docking station turns your laptop into a portable powerhouse. It supports up to two external displays at 60 Hz, USB-A and USB-C charging capabilities, quick file transfers, and a variety of external peripherals.

### Power Your Productivity

With 100 watts of total power delivery, you don't have to choose between port expansion and power. The Stone CORE upgrades the potential of your laptop, allowing you to transfer files in a flash, connect USB peripherals, charge your laptop or mobile devices, and more.

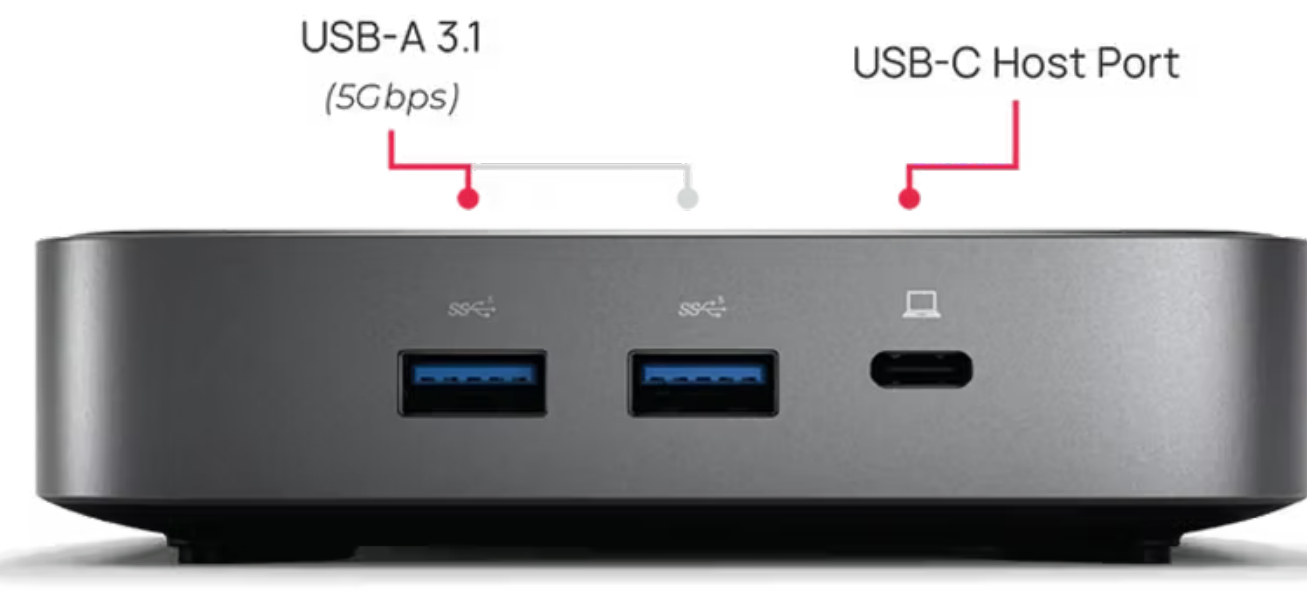

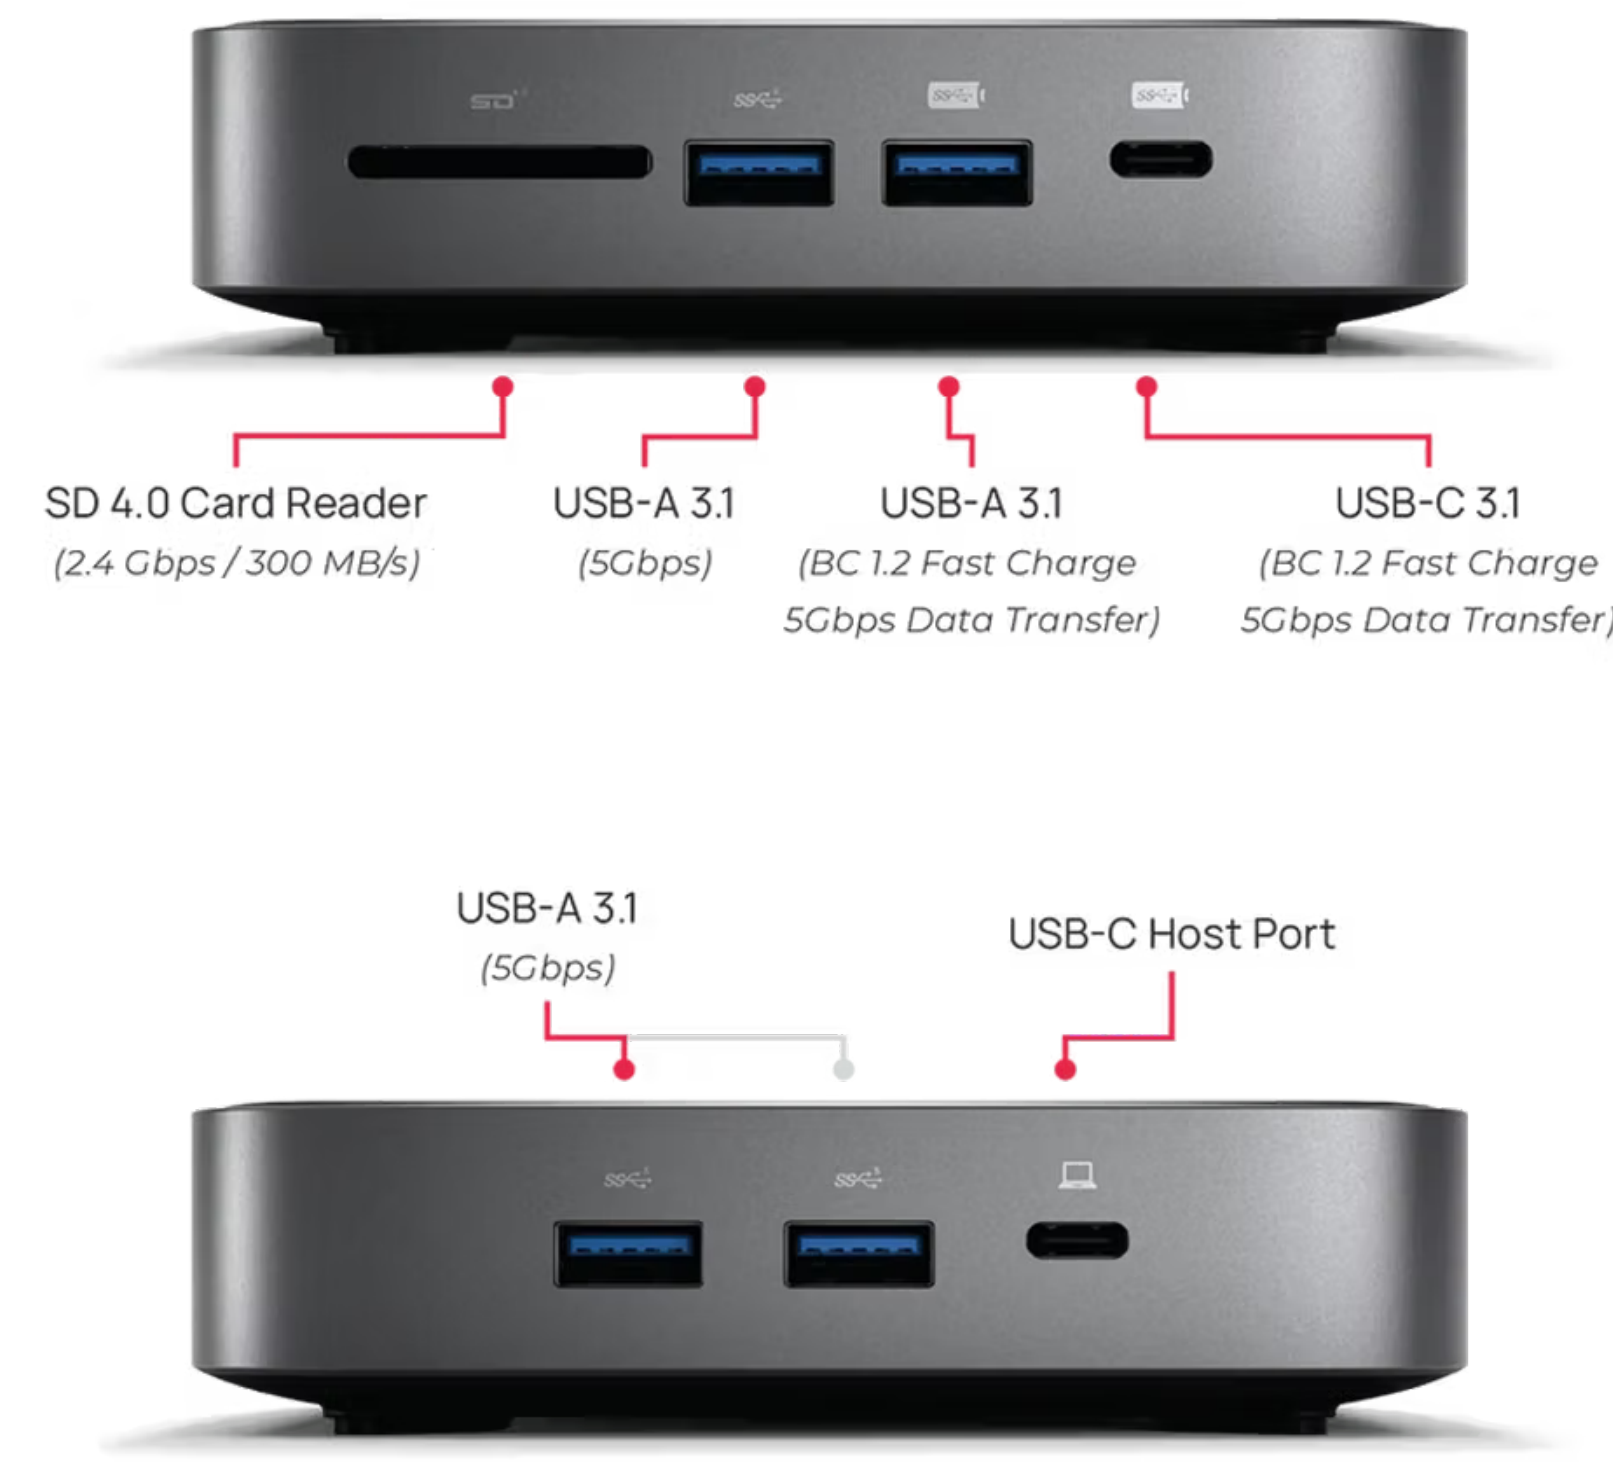

### Multi-Task Like a Pro

Designed to support two external displays, the Stone CORE maximizes efficiency by instantly connecting to hard drives, memory cards, and other equipment—all while maintaining a clean desk space.

### Streamline Your Setup

The Stone CORE is an ideal desktop solution for any home or commercial office environment. It's compatible with Windows 10 and Windows 11 devices and connects with a variety of external peripherals—like cameras, hard drives, and keyboards.

## TECH SPECIFICATIONS
